

KNOW OTHERTM FESTIVAL

Partnership Opportunities

April 16-19, 2026

A sanctuary for queer healing, connection, and self-expression.

Why Know Other

Know Other Festival is more than a gathering, it is a living sanctuary for queer healing, connection, and self-expression. Led by an African born, Black, queer woman, the festival is rooted in grassroots values and carries forward a vision shaped by lived experience and community care. The 2026 festival is a call to persist, to resist, and to grow together. In a moment when our communities face louder attempts at erasure, Know Other offers a circle of care, joy, and collective action.

For four days in Joshua Tree, CA, LGBTQ+ women, trans, nonbinary, and gender expansive identities come together to:

- Share wellness practices that restore us
- Experience art, music, and performance that awaken us
- Engage in workshops and rituals that nourish and empower
- Build a community that celebrates our fullness and belonging

This is more than a festival, it is a movement. A space where your partnership helps ensure queer brilliance, joy, and resilience are seen, celebrated, and sustained. As we grow into 2026, we do so with clarity, guided by the mission, vision, and values that shape every part of Know Other Festival.
